The Community Company had funding to investigate the network of paths in the area - From Greshornish to Brookside.

Further funding has now been offered to look at creating the two routes shown in pink for all non motorised users.

We are wanting to investigate how people use the paths and what improvements might be valuable.

Normally we'd share via a meeting but not at present...

You'll notice some of the paths in green aren't there yet - they have been discussed and are likely to be created in future.

Please do our survey! Businesses too.

## Survey - Continued:

We are looking for help from everyone so more than one response per house is ideal.

We'd like to hear from people who use the paths, those who don't, people who feel they can't. Wheelchair users, cyclists, people with limited walking ability, horseriders, walkers. Young and old.

There are a couple of small cash prizes as a thank you.

We don't get user identification back with the survey - except enough to claim a prize - we'll only use it for that purpose.

If you would like a paper copy of the survey please email, text or phone and we'll drop one off.

Further info - see *Edinbane Community Links* on the website.

More News:

## Affordable housing in the village.

In 2015 some of you gave valuable assistance with an earlier survey on housing - this has been of great help in attracting funding from the Scottish Land Fund for creation of a business plan to support the provision of six affordable houses in the village.

These will be built at Coishletter and the planning application is ongoing.

The houses will be owned by the Community Company and any surplus will go towards maintenance and other projects around the village. We'll have a full say in the creation of a lettings policy.

That's in the future - at this stage we'll create more detail so that we can apply to the Land Fund next May for funding to purchase the plots.

We'll be back in touch to ask for more help on this later.

## Join the Community Company.

If you are not already a member, membership of the community company gives a number of advantages -

You get more info on what's going on (we admit, this has been a bit sparse recently- there will be improvements.

You can influence what happens at the AGM or by standing to be a director.

Interested in the paths - join the Steering Group
